

**February 25, 2021**

Dear President-Elect Biden & Members of Congress,

We are small business leaders, and we support RECURRING, direct checks until the economy recovers because:

- Checks provide relief — for food, housing, the basics.
- Checks are the quickest and most effective way to get money into people's pockets.
- Checks get spent, which boosts the economy and supports our communities.

For these reasons, we support the expansion of the Child Tax Credit to be larger, fully refundable and sent out monthly.

We call on you to deliver more relief, because most American families and businesses need more to make it through this economic and public health crisis.

Sincerely,

**John Colgan-Davis**
